## Ear Band-Its™

Neoprene headband holds swim plugs in and helps keep water out of the ears. Initially developed for children with ear tubes, now demanded by water enthusiasts of all ages who have swimmers ear, perforations or simply do not like to get water in their ears. Available colors include blue, purple, raspberry, red, turquoise. Available in three sizes.

54111-Q thru 54135-Q \$8.50

## Air Blowers

Bulb syringe with pinpoint release helps remove moisture from earmold tubing.

50571-Q individual \$3.75  
50572-Q 12 units w/display \$40.00

## Oto-Probe II

Designed specifically for the hearing healthcare professional. A great value earlite with bright Krypton bulb.

24101-Q \$8.35  
24105-Q replacement bulb \$1.75

## Hearing Aid Saver™

Moisture removal system for hearing instruments and other small moisture-sensitive items. Drying crystals are easily reactivated in microwave. Handy for nightstands and travel. Standard or mini.

50551-Q standard individual \$4.35  
50552-Q mini individual \$4.35  
50561-Q standard 12 units \$46.00  
50562-Q mini 12 units \$46.00

## Digital Battery Tester

Designed specifically for testing zinc air hearing instrument batteries, this unit also has a convenient built-in compartment for storing two spare batteries. Compact design perfect for purse or keychain use. No battery inside needed to function and uses only 0.3mA for each test.

52631-Q \$4.95

## Battery Holders

Ensure your patients always have a fresh battery on hand when the old one wears down. Priced to give away with each instrument sold. Available sizes hold 2 or 3 batteries in either white or yellow. Custom printing with your name and phone number also available (call for special pricing).

52651-Q thru 52656-Q qty 50 \$.69 ea.  
52661-Q thru 52666-Q qty 500 \$.64 ea.

## Oto-Ease®

Earmold lubricant makes earmold and hearing instrument insertion easy and comfortable and helps ensure a better fit. Perfect for any custom-fit product for the ear. Water soluble and non-staining, safe and convenient. Available in half ounce dropper vials or new single-use packs.

54015-Q ½ oz. bottles (12) \$21.50  
54017-Q 100 packets \$10.00

## Miracell™

Unique blend of highly concentrated natural plant extracts relieves itchy ears and acts as a lubricant. Also softens wax buildup so ears clean themselves naturally. Boxed individually in 1/2 ounce bottles or in a display box of 12 bottles.

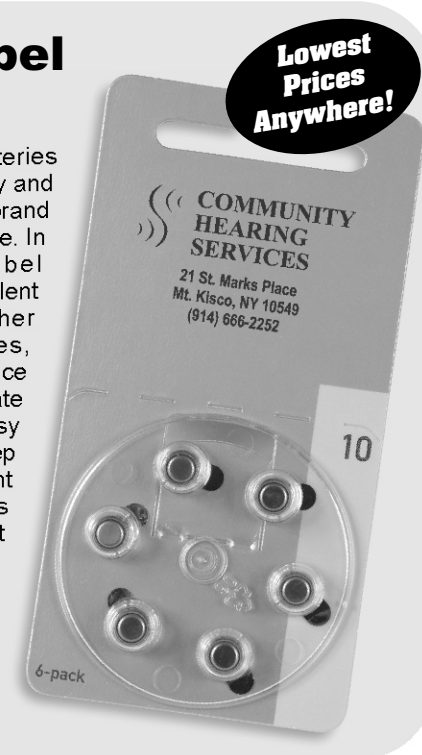

54025-Q individual \$6.95  
54026-Q 12 units w/display \$81.00

## Private Label Batteries

Our private label batteries provide the highest quality and longest life of any name brand battery, but at a lower price. In addition, private label batteries are an excellent marketing tool. Whether retailing the batteries, providing them with a service agreement or both, private label batteries are an easy and convenient way to keep your business name in front of your loyal customers and serve as a constant reminder of your professional services.

Dry & Store Professional

## Dry & Store®

The ultimate in hearing instrument care. Combines the 3 essential elements needed to dry hearing instruments: heat, moving air, and a charged desiccant. In addition, a germicidal lamp sanitizes the instrument while it dries. Available in Professional or Global model for traveling ease. No need to remove batteries. Two-year warranty.

50541-Q Professional \$126.90  
50540-Q Global \$79.95

## PROS®

Revolutionary oto-blocks constructed with a ventilation tube that allows the equalization of air pressure as the impression material is being injected and later as the impression is removed. Package of 24 includes specially designed slotted earlite tip.

20301-Q assorted \$15.00  
20302-Q 7mm \$15.00  
20303-Q 9mm \$15.00  
20304-Q 11mm \$15.00  
20305-Q 13mm \$15.00

## SiliClone®

A full line of cartridge impression materials for use in any manual impression gun or electric system. Choose from original SiliClone or SiliClone Firm, which offers viscosity comparable to our manually mixed Pink Silicast. SiliClone is available in both the traditional 48ml cartridge and new S-50 cartridge, which better prevents early contact between the base and catalyst. SiliClone Firm is only available in the S-50 cartridge. Order individually or in packs of eight, with or without mixing tips. Call for quantities and pricing.
